Drink temperature:	6 – 8 °C	Salt:	<0,1 g

Description:

The sparkling Dri.Ver! Rosé combines the fine acidity of verjuice with the aromas of wild berries. Strawberries, raspberries and redcurrants are all present on the nose. The sparkling wine does not taste too sweet and has a tangy character. The full-bodied taste is achieved through the combination of dealcoholized wine and verjuice. The base wine is a cuvée of Pinot Noir and Dornfelder from the 2024 vintage. The grape varieties complement each other perfectly and round off the overall impression of the Sparkling. Just the thing for warm summer evenings.
